**Ortho2 Announces Edge 2.0**

(Ames, IA) April, 26, 2011—Ortho Computer Systems, Inc. announces the release of Edge 2.0 enhancements. Ortho2 introduced the revolutionary Edge system, a comprehensive practice management, imaging, and communication system that utilizes secure web-based data hosting and back up, one year ago. Edge 2.0 features enhancements such as Edge Animations, Edge Reminders, HR Manager, Online Forms, Image Morphing, and Collections Assistant designed to optimize the efficiency of the practice.

Edge Animations are a powerful tool for enhancing patient education, compliance, and case presentation. Edge and ViewPoint include a set of Patient Compliance Animations at no charge. An optional extended set of treatment based animations is available for both Edge and ViewPoint, as well as with other management systems or by itself. The cutting edge rendering techniques used produce videos of such exceptional quality they must be seen to fully appreciate their educational power. Features include powerful surgical animations, stereoscopic (3D) animations, easy-to-use graphical interface, annotate and draw functionality, custom audio narration, and more.

Edge Reminders, available for both Ortho2 ViewPoint and Edge users, is an easy-to-use, efficient system for automating patient reminders. Reminders can be sent via multiple message options including phone, text message, and/or e-mail for any range of upcoming appointment dates, recall reminders, birthday greetings, and more. There are no minimum monthly charges and no long term commitments required.

“Edge 2.0 showcases some exciting new enhancements,” says Dan Sargent, president and co-founder of Ortho2. “Every upgrade we make further demonstrates our focus and commitment to helping our orthodontic partners succeed. We’re working hard to make certain Edge increases efficiency and profitability for orthodontic practices. It’s part of Ortho2’s proven track record of listening to our customers and providing innovative solutions for orthodontic practices.”

In addition to offering complete practice management, imaging, and communication systems, Ortho2 also offers several independent modules Edge Imaging, Premier Imaging, and Edge Animations.

**About Ortho2**

Ortho2 is the largest independently owned provider of comprehensive orthodontic practice management software and has been serving orthodontists exclusively for nearly 30 years. Ortho2 is deeply committed to improving the efficiency and profitability of orthodontic practices across the country through continuous research and innovation of practice management technologies.
